```
        layer.plot(ax, facetgroup, self._aes, **kwargs)
    File "D:\Anaconda\lib\site-packages\ggplot\stats\stat_smooth.py", line 77, in plot
      smoothed_data = smoothed_data.sort('x')
    File "D:\Anaconda\lib\site-packages\pandas\core\generic.py", line 5067, in __getattr__
      return object.__getattribute__(self, name)
  AttributeError: 'DataFrame' object has no attribute 'sort'

  Process finished with exit code 1
```

点击"stat_smooth.py"打开文件,
在文件中

把smoothed_data = smoothed_data.sort('x') 改为smoothed_data = smoothed_data.sort_values('x')

最后保存
